Shaun Hargreaves, born September 22nd 1991, is a teenager living just south of Manchester. He was once a student, but isn't any more. He thinks that the third person is kinda cool when imagining that someone else is reading what he says.

Making websites is – to quote every CV ever made – my passion. Since the spring of 2003 I've been working my way up the ranks of website design and development, improving things over time until I got moderately quite good at it; I've even appeared in *.net Magazine*. I'm now quite moderately competent at (X)HTML, CSS, PHP, SQL and jQuery.

Outside of web development I have a random mishmash of interests including writing (primarily non-fiction), illustration, politicising and being angry and opinionated.

FOR YOU...

EXPERIENCE

2007 Dean Oaks Primary School Wilmslow

10 days work experience as an administrative assistant.

Included such tasks as financial management, being in charge of telephones, the reception desk, self-supervision, the creation of classroom resources, liaisons with various staff and parents, and wearing a blue shirt.

2008 Hitec Computers Cheadle

1 day of work experience as... everything.

I started my time there cleaning floors, spent the middle of it restocking shelves and the end of it building and maintaining computers. I think I did pretty well.

I REGULARLY WORK UNDER THE NAMES

SKILLS

WEBSITE DEVELOPMENT

I consider myself an expert at coding in (X)HTML, CSS and SQL; rating intermediate at SQL and using the jQuery JavaScript library. I have experience in using Adobe Dreamweaver and Photoshop, as well as other website development programs.

WRITING

I've previously written both fictional and non-fictional texts. I've written humorous short stories and poems for various uses, however I generally dwell in encyclopaedic entries and news reports.

PUBLIC SPEAKING

I'm rather good at public speaking and can read entirely unrehearsed passages with only a few errors. I'm fine with improvising too provided I'm knowledgeable on the topic at hand.

COMPUTERY THINGS

Give me the parts then I can build a computer.
Give me the Internet and I can diagnose a problem.
Give me the power button and I'll switch it off and on again.
